

Simplilearn Launches Mission: AI Ready! | Aims to Upskill 100,000+ Alumni in Gen-AI by FY 2025

- Simplilearn creates a pool of 50 cr for GenAI scholarships, exclusively for Simplilearn Alumni

Bangalore, India, 04 November 2024— [Simplilearn](#), a world leader in digital upskilling, is excited to announce its latest initiative, "Mission: AI Ready!" to upskill 100,000+ alumni in generative AI by the end of FY25 - A reinforcement to Simplilearn's commitment to addressing the evolving needs of the workforce and ensuring that its alumni remain competitive in the rapidly advancing tech landscape. As part of this initiative, its [specific generative AI programs](#)* will be available to the alumni with scholarships of up to 50% of the program's tuition fee.

The demand for GenAI courses in India has increased by 195 percent in Q1 2024 compared to Q1 2023, scaled to 3x over last year. Over the past year alone, we have seen over 300,000 professionals enrolled in GenAI through our various programs. According to [McKinsey](#), generative AI has substantial economic potential, with estimates suggesting it could contribute an additional [\\$2.6 trillion to \\$4.4 trillion](#) annually to the global economy by 2030. This growth will create numerous jobs across various sectors, particularly technology, healthcare, finance, and customer service.

Generative AI is reshaping industries and disrupting traditional roles. Recently, Simplilearn launched specialized programs customized to various AI and data science career paths - [Applied Gen AI Specialization](#), [Gen AI and Business Transformation](#), and [No-Code AI and Machine Learning](#). These programs were created with leading academic and industry partners such as Purdue University, and major tech companies like Microsoft and AWS.

The Applied Gen AI Specialization program is designed for tech enthusiasts seeking advanced skills in Large Language Models (LLMs) and their applications. For those inclined toward business roles, the **Gen AI and Business Transformation program** focuses on leveraging generative AI for business processes, including prompt engineering and workflow automation. Meanwhile, the **No-Code AI and Machine Learning program** caters to data professionals who prefer to work with the latest no-code tools for model deployment and optimization.

To ensure GenAI readiness, Simplilearn alumni are eligible for exclusive scholarships from this pool.

"The growth of GenAI is visible all around us, and across workplaces, business applications, processes, and job roles are being redefined. In our assessment, almost all professionals will need to upskill in GenAI to stay relevant and use this technology to innovate. We are committed to the career success of our alumni worldwide, and this initiative is our way of ensuring they get skilled in GenAI and benefit from these changes rather than facing any challenges," said Mr. Kashyap Dalal, Co-Founder and Chief Operating Officer of Simplilearn.

**Only specific Gen AI programs and not all AIML programs - T&C apply*

About Simplilearn
